T. R. FAILS TO WIN COMMITTEE

Republican National Body to Turn Down Roosevelt Scheme for Control

COLONEL CLAIMS MAJORITY

Conceded that Taft Men Will Be Seated in All Contests Brought by Teddy

CHICAGO, June 5.—The attempt of the Roosevelt followers to "seat" newly elected committeemen from the various states that are represented at present in the republican national committee has failed. William L. Ward, committeemen from New York, and a leading Roosevelt lieutenant, admitted this on his arrival here today. He, as a member of the subcommittee on rules, discussed this question with other members enroute and stated point blank when asked that the term of office of a national committeeman begins at the end of the national convention. "Do you consider that ruling good in the Nebraska situation, where an attempt is being made to have the sitting member, Victor Rosewater, unseated?" he was asked.

Rosewater to Stay
"Mr. Rosewater is a legal member of this committee and will retain his seat during the lifetime of the committee," answered Ward with animation.

The New York member of the committee also said that he believed the former rules will govern the committee at its sessions beginning tomorrow. This will mean that in order to get a record vote on the disposition of any contest, twenty members must join in the request. Otherwise contests will be disposed of by viva voce vote.

Three-quarters of the membership of the national committee was represented at the Congress hotel when the fast trains from the east rolled in today. Gus Karger of the personal representatives of the president, brought messages from Taft leaders in Ohio to Congressman McKinley and his aides, the nature of which was not revealed.

T. R. and Taft to Fight
Taft and Roosevelt will stand or fall by the action of the convention. They will fight it out together and it was said that the La Follette delegates would be too few in number to hold the balance of power and force a deadlock. The result in Ohio was peculiarly a disappointment to the Roosevelt forces who had expected victory following the success of Walter Brown in securing his re-election as state chairman.

The Roosevelt forces are certain that they will have a majority of the uncommitted delegates to the convention was made plain today when they analyzed the role of delegates in the light of expected action of the national committee seating the Taft claimants. They pointed out that when the roll is submitted for confirmation there will be with it a minority report brought in by William L. Ward, Colonel Lyon and the Roosevelt committeemen and that they will then have the opportunity to demonstrate for the first time just how far their strength goes.

LYNCH WINS

INDIANAPOLIS, Ind., June 5.—James M. Lynch of Syracuse, N. Y., was re-elected president of the International Typographical union by a majority of 4,969 according to the official announcement here this afternoon. Lynch got 24,069 votes to 19,100 for Fred Barker of Spokane, Wash.

COL. JOACHIM RESIGNS

WASHINGTON, June 5.—After 33 years of service, Col. George H. Joachim, of the First Wisconsin regiment of infantry, will resign at the close of this year's annual encampment at Camp Douglas. He will be succeeded by Lieut.-Col. Stearns of Monroe.

WOMAN WHIPS 7 MEN

MINNEAPOLIS, Minn., June 5.—Accused of whipping her husband and six men boarding at the house, all of whom were found cowering in corners of rooms, according to the police, Mrs. Bertha Dumbrovitz, keeper of a lodging house, was placed on trial in municipal court today.

Teddy's Bull Rival Of Speaker's Hound

CHICAGO, June 5.—About the halls of the Congress hotel today was wafted a ditty that was pronounced a fitting campaign companion of the Clark-Missouri Hound song. The clerks from New York and Washington bureaus of the Roosevelt committee sang it. Here are the words:

Teddy's gotta dawg, but he ain't no bound,
He's a square-jawed bull, and his face is round;
His legs are short, and he's close to the ground,
And you bet they ain't kickin' Teddy's bull around.

Chorus—
Square-jawed bull, and his face is round,
Square-jawed bull, and he ain't no bound;
Short-legged bull, close to the ground,
And you bet they ain't kickin' Teddy's bull around.

SERVE NOTICE ON TOWN OF HOLLAND

County Sends Ultimatum that McGilvray Road Must Be Repaired in Sixty Days

MAY TAKE FIGHT TO COURT

Controversy Over Who Shall Bear Expense May Be Cause of Suit

With the mailing of the ultimatum to the town board of the town of Holland by County Clerk Charles Rawlinson today, stating that the county would give the town sixty days in which to begin the work of repairing the road leading to the McGilvray bridge, the fight which has been brewing between the town and the county of La Crosse for years, came to a "show down." According to the notice, if the town does not commence the repairs within sixty days the county will order the work done and will assess the cost to the taxpayers of the town of Holland.

The notice was sent according to Section 1311 of the revised statutes of Wisconsin which provides that a town must repair an established road when petitioned to do so by a sufficient number of freeholders owning property whose means of travel is over the road in question. According to the statute six signers is a sufficient number to cause action.

Petition is Filed
A petition bearing the names of twenty freeholders with property abutting on and adjacent to the McGilvray road was filed with the county clerk a month or more ago. The petition sets forth that the road was in an impassable condition and asked that the needed repairs be made at once. It was stated that the matter had been taken to the county for adjustment after the town board had refused to come to their relief. At the last meeting of the county board this petition came in for considerable discussion, several of the members being in favor of the county making the needed repairs and assessing the cost to the town. It came out at that time that the town board of Holland will probably bring suit against the county in case this is done.

The McGilvray road, which is an approach to the McGilvray bridge, is about two miles long and, because of the controversy over who shall bear the expense of repair, has fallen into nearly an impassable condition. The road was established in the early "eighties" when the bridge was built in place of the McGilvray ferry. For many years it was kept up by the county and many attempts were made to have it incorporated into the county and state system of highways but the plan always fell through when brought up before the county board.

May Go to Courts
Because it is not a part of the county system of highways, repair work on it must be borne by the town in which it is located. This is what the town board of Holland has refused to do claiming that it was against the wishes of the taxpayers of the town that the road was established in the first place. They maintain that the county has unloaded the care of the road onto the town because of its expense.

There is little doubt that the controversy will be taken to the courts for final adjustment. Whichever way the courts decide in regard to the expense, one fact is causing the petitioners no little joy and that is—the road will be fixed.

LA CROSSE IS GROWING

U. S. MARINES LAND IN CUBA

450 Men Put Ashore at Guantanamo to Protect American Property

REVOLT BECOMES SERIOUS

Consular Reports Indicate Rebellion Is Growing Too Big for Gomez to Handle

WASHINGTON, June 5.—Four American battleships will be rushed at once from Key West to Guantanamo, according to decision reached by President Taft and the secretary of state, at a lengthy conference today.

The United States Steamship Prairie sent 450 marines ashore at Guantanamo today, according to state department dispatches. The marines were landed on the order of Captain Kline of the Guantanamo naval station, and distributed to guard the extensive American interests near Guantanamo against further depredation by the negro rebels.

The Cuban revolt today suddenly assumed its most serious aspect since the negro rebellion began. Reports from all parts of the island by American consuls today indicated that the revolution is rapidly getting beyond President Gomez' control. A report to the navy department from the U. S. S. Paducah was that the rebels around Santiago were threatening a general attack upon American property. It was thought likely here that the Paducah would land her marines before nightfall.

Strong pressure was being put on the administration today to land all of the force of 3,000 marines now near Cuba.

HAVANA, June 5.—The sacking and burning by negro rebels today of the village of Janahurea, a station on the Guantanamo & Western railway and an important coffee center, caused the demand by American planters and railway men that marines be sent for their protection. It was in response to these requests for troops that marines stationed at the Guantanamo naval station were sent across into Cuban territory and to take their places 450 additional marines were landed at Desee point, near Caimanera, and sent to Guantanamo.

ROBBED IN AUTO

WASHINGTON, June 5.—Capitol police today were confronted with a mystery in the jewel robbery reported by Mrs. Arthur Wallace Chase, wife of Major Chase, stationed at San Francisco. She said she fainted in a hired auto while riding downtown, and when she recovered found her \$2,000 pearl necklace, a number of other jewels and \$150 in cash were missing.

DEPARTMENT WILL GRANT NEW TRIAL

Leonard Olsson Will Have New Chance Despite Decision of Judge Hanford

WASHINGTON, June 5.—President Taft and Attorney General Wickham today ordered federal officials at Seattle to grant a new trial to Leonard Olsson, whose citizenship papers were cancelled by Federal Judge Hanford at Seattle because Olsson was a socialist.

Representative Victor Berger, the Wisconsin socialist, today prepared an impeachment indictment against Hanford for presentation in the house tomorrow. Berger was closeted with the president for an hour and later said both Taft and the attorney general absolutely repudiated Hanford's ruling, and will furnish all papers in the government's possession in connection with the Hanford case for an investigation by the house. Olsson had been done "gross injustice" was stated by Wickham in a letter to day received by Berger. "I have instructed the United States attorney," he wrote, "to facilitate in every way within his power the reopening of the decree and the securing of a new trial, or failing that, of an appeal to the circuit court of appeals."

RIOT IN PARLIAMENT

BUDAPEST, June 5.—There was a further wild uproar in parliament today when Count Tisza was howled down by his opponents and thirty deputies were expelled from the chamber by the police.

ARKANSAS FOR CLARK

LITTLE ROCK, Ark., June 5.—Champ Clark will get another collection of delegates from the Arkansas state democratic convention which met here at noon today.

National Committeeman Is Robbed In Chicago

CHICAGO, June 5.—Although police of Chicago and various visiting officers who are supposed to know all the prominent pickpockets who have the freedom of the United States, have been watching hotels, streets and theaters for more than a week to keep the city clear of this profession during the republican national convention, they were today brought face to face with one of the cleverest bits of pickpocket skill of recent years.

C. E. Loose of Utah, republican national committeeman, was robbed of six \$100 bills, a draft for \$275 and railroad passes that were his fare back to Utah. He sat in a box at a vaudeville theater. While the house was dark and the only light on the stage came from an imitation grate fire, a man who had been sitting in the next box arose, stumbled against Loose, apologized and left the theater. When the lights were switched on five seats in Loose's neighborhood were vacant. So was his left hip pocket.

ROOSEVELT WINS IN SOUTH DAKOTA

Twelve Thousand Is Majority Over Taft and La Follette in South Dakota

WILSON BEATS OUT CLARK

Two to One Is Ratio of Governor's Vote Over Ballots Cast for Speaker

SIOUX FALLS, S. D., June 5.—Latest reports from yesterday's primary election indicate that Roosevelt has a list of ten delegates to the Chicago convention, elected by a plurality of from 10,000 to 12,000 at least.

Wilson apparently has defeated Clark and captured ten delegates to the Baltimore convention by two to one votes over Clark. Clark's vote is divided between two lists of Clark delegations, but there is little doubt that United States Senator Gamble was defeated by Thomas Sterling, progressive republican candidate. It is believed Congressman Martin and Burke won their renominations and that C. H. Dillon, republican, is nominated to congress in the first district.

President Taft and Senator La Follette, the returns indicated, were neck and neck for second in the republican presidential vote. Returns from 250 precincts out of 1,500 showed Roosevelt's estimated plurality of 12,000 would likely be the final result. Congressman Martin's renomination was shown in the early returns. Although there was some room for doubt, it was believed that Congressman Burke had been renominated in the Second district. Frank M. Byrne, republican candidate for governor, had a lead over George W. Eagan, his opponent.

Former Senator Pettigrew, primary candidate for United States senator on the democratic ticket, had no opposition.

Early indications are that La Follette will be second to Roosevelt in the total vote. Returns from the sections where he campaigned indicate that he received a heavy vote in all these localities.

COMMUTE WOMAN'S SENTENCE

BOSTON, Mass., June 5.—Mrs. Lena Cusumano will not have to die in the electric chair. After a three hours session today the governor's executive council this afternoon voted for commutation of sentence for the woman, who, with her lover, Harry Marshall, or Enrico Mascioli, had been sentenced to death for the murder of her husband, Frank Cusumano.

WANTS AGE CHANGED

MADISON, Wis., June 5.—In his report to the grand lodge of Odd Fellows in session here, Grand Master John Luchingok of Monroe, advised the lodge to change the minimum age limit for new members from 21 years of age to 18, so that the Odd Fellows will be able to compete with other organizations for new members.

GIBSON HEAD OF BAPTIST SOCIETY

Warrens Man Chosen Moderator by La Crosse Valley Association This Morning

BANGOR MAN IS SECRETARY

Rev. R. J. Lloyd Is Given Second Place with that of Treasurer in the Election

Rev. M. E. Gibson, Warrens, was this morning chosen moderator of the La Crosse Valley Baptist association at the opening session of the convention in the First Baptist church. His election followed the recommendation of the nominating committee. Rev. R. J. Lloyd, Bangor, was elected clerk and treasurer. Both these officers will serve for the coming year. The morning session opened with an inspiration service led by Rev. J. M. Wilson, Kendall, after which the association went into business session. The morning was devoted to election of officers.

Discuss Missions
The afternoon session was taken up with two addresses by Rev. M. E. Gibson on the Northern Baptist convention, and on the maintenance of missionary interest in the local church by Rev. W. A. Billings, pastor of the first Baptist church of La Crosse.

This evening the association will be entertained by an exposition of great church hymns by Rev. M. E. Gibson, the newly elected moderator. There will also be an address by Dr. T. L. Ketman of Chicago and vocal music by Miss Laura Emery.

"Conservation" was the topic of the annual sermon of the La Crosse Valley Baptist association, delivered last night by Rev. T. W. Gales, Ontario. It was a powerful and stirring address which pointed out the necessity of conserving the power of the church along the same general lines that natural resources are cared for by the nation, in order that the work of Christianity may not die out.

Foreigners in Wisconsin
Rev. Gales was followed by Dr. D. W. Hulbert, general secretary of the Wisconsin Baptist state convention, who discussed the opportunities the Baptists of Wisconsin have among the foreign population of the Badger state. The speaker showed great familiarity with statistics regarding this element of Wisconsin's population.

In the afternoon yesterday the Sunday school conference was held, at which reports for the year were read by officers, and conditions and problems of Sunday school work were discussed.

Last night the services opened with an exposition of great Sunday school hymns by Rev. R. J. Lloyd, Bangor.

This afternoon at 4:30 the visiting members of the association will be taken about the city on an extended auto trip.

OHIO DEMOCRATS SEND A CONTEST

Toledo Convention Forces Unit Rule and Wilson Delegates Declare a Bolt

TOLEDO, June 5.—The Baltimore national convention must settle whether nineteen Ohio delegates pledged to Woodrow Wilson shall be voted for Judson Harmon.

The unit rule was adopted today by the democratic state convention held by a vote of 597 to 357. Congressman James M. Cox was nominated for governor. There was no hitch in the Harmon plans.

Senator Newton D. Baker of Cleveland, hurled defiance at the Harmon machine and announced that he will carry the fight to Baltimore.

Baker backed by no 18 other Ohio Wilson delegates, will demand the assistance of William J. Bryan and every progressive national delegate. Defeat for Baker came when his minority report on the unit rule was put to vote. Baker's amendment instructed the twelve delegates at large for Harmon, but offered no demands upon the state's forty-two district delegates.

Baker's defeat means that every Ohio delegate to Baltimore shall be voted for Harmon by the chairman of the delegation.

BARNES WON'T SIT

NEW YORK, June 5.—At the office of William Barnes, Jr., republican state chairman, today, it was stated that he would go to Chicago either Sunday or Monday, but it was emphatically denied that Barnes would sit in the national committee with a proxy.

URGES LIABILITY LAW

WASHINGTON, June 5.—The new liability laws for employers was urged by Senator Sutherland of Utah, before the National Association of Factory Inspectors today.

Progress of Schools Shown In Exhibit

An exhibition of the work being done in the public schools of La Crosse will be given Friday and Saturday in the J. J. Poehling (McMillan) building, corner Fourth and Main streets. The exhibition opens at 2 p. m. Friday. Superintendent L. P. Benezet extends an invitation to the public and hopes that citizens generally will take advantage of the opportunity to observe the progress of the schools.

The exhibition will cover all the important courses of study. Manual training will have an elaborate display. The penmanship now employed in the schools will be represented. The drawing department will also occupy considerable attention. In addition to this the exhibition will cover the commercial school, construction work in the grade schools, domestic science, domestic art, kindergarten work and all other definite branches.

WOMEN LEAD IN STRIKE RIOTING

High School Boy and Female Agitators Shot by Police in New Jersey War

LEADER AND BOY WILL DIE

Amazon Struck Twice by Bullets when Laborers Tear Her from Officers

NEWARK, N. J., June 5.—In a wild strike riot started today by women at the Lackawanna railroad, followed by a terrific battle between the reserves and 500 infuriated laborers, a 13-year-old high school boy was shot through the head, the woman who led the strikers was hit in two places, and five men were badly injured. Among the injured were two noncombatants, a truck man and Albert Faukes, besides the school boy. The boy is dying in the city hospital. Mrs. Fellmino Dauria, who led the women, is also expected to die.

A number of women, wives of the striking laborers, went to the Lackawanna cut, near Branch Brook park, and hurled stones at a gang of men at work.

Sergeant Bowers and five patrolmen were rushed to the scene. They charged the surging crowd of women, and singled out Mrs. Dauria, who had her apron full of stones. They seized her. Hundreds of the foreign section rushed to the scene. A fusillade of shots rang out.

Mrs. Dauria was struck twice by bullets. She staggered and fell, and was dragged beyond the reach of the policemen. With two prisoners, the policemen retreated. They were followed by the rapidly increasing mob of infuriated laborers. In Orange street the laborers, five hundred strong, swept upon them.

Detective Fisher of the Lackawanna railroad, saw the battle and telephoned for the reserves. In the meantime young Faukes, together with four companions, came upon the scene, and Faukes was shot through the head.

LINDSAY LEADS CONTEST

DENVER, Colo., June 5.—A protesting delegation from Colorado to the republican national committee will be elected by the progressive republican leaders here at a mass meeting tonight. Judge Lindsay of the juvenile court, mentioned prominently as Roosevelt's running mate in the coming national campaign will head the delegation which expects to go before the national committee and demand admittance on the ground that the forces which controlled the recently republican convention at Colorado Springs based their control on gross frauds in Denver county.

EXONERATES WOMAN

BOSTON, Mass., June 5.—When Attorneys Grady and Coughlin place before the governor's council today an affidavit signed by Harry Marshall, or Enrico Mascioli, declaring he murdered Frank Cusumano and exonerating the latter's wife, Mrs. Cusumano, sentenced to death in the chair, it was confidently expected the woman's sentence would be commuted.

BAR FOREIGN SHIPS.

NEW YORK, June 5.—The government today filed an equity suit to restrain freighters of the Hamburg-American, the Prince and the Lamport and Holt steamship lines from entering American ports. The order was asked on the ground that the three lines maintained a pool, fixed rates and gave rebates to shippers in the South American trade.

DENGLER CALLS A HARMONY MEETING

Board of Public Works, City Engineer, Attorney and Mayor Hold Conference

DISCUSS WATER QUESTION

Co-operation Said to Have Been Promised by the Members of the Board

War, between the city council and the board of public works and city engineer on the water question, is at an end. Following a private meeting of the mayor, board of public works, city engineer and city attorney in the city hall this morning, Mayor John Dengler announced that all will be peace and harmony between the two bodies and that they will work as a unit on the work connected with the installation of the well system in the future.

For over two hours the public officials argued behind locked doors before they adjourned with an agreement to cease all hostilities on the well question. It is understood that no objections will be raised by either body on the action taken by the other and that all will apply themselves to advancing the work of installing the well system as rapidly as possible.

Will Hasten the Work.
Mayor Dengler today said: "I have received the promises of all of the members of the board of public work and the city engineer that they will put no further obstacle in the way of the well system and that they will work in concert with the city council in every way to hurry the work."

For several months the council and board of public works have clashed over the legality of certain procedure relative to the installation of the well system. Among the questions in dispute were the right of the council to employ an engineer to draw up plans for the well system and the right of the council to purchase sites for wells.

Following the disputes, certain members of the council threatened to abolish the board of public works, in order to remove certain rights which they held under the provisions of the charter. Another reason given for the proposed action of abolishing the board was that the board was causing too much opposition to the well system.

Council Meeting Called.

The board immediately came back with the assertion that the council could abolish the board if they wished, but that they would stand by their rights as long as it was in existence. Although defied in this manner by the board, no action was taken by the council to abolish that body, as it requires a two-third vote and it would be practically impossible to carry the resolution.

This morning's meeting is the outcome of the trouble which has existed for several months. How the settlement was reached or upon what terms can not be learned.

A special meeting of the city council has been called by Mayor Dengler for Friday night, when the special water committee will make its report.

DEVELOPMENT MEET OPENS

SEATTLE, Wash., June 5.—The Northwestern Development congress opened here today.

WEATHER

For La Crosse and vicinity: Unsettled weather with showers tonight or Thursday; no decided change in temperature.

For Wisconsin: Unsettled weather with showers tonight or Thursday; not much change in temperature. For Minnesota: Unsettled weather with showers tonight or Thursday east and south portions; cooler northwest portion tonight.

Iowa: Unsettled weather tonight or Thursday; warmer southeast portion tonight.

Weather Conditions
The temperature has fallen in the north Atlantic states and risen in the southwest; elsewhere it has remained nearly stationary. Showers have occurred in the south Atlantic and gulf states and throughout the Missouri and upper Mississippi valleys, in the Lake Superior district and western Kansas. Areas of high pressure are central over the central states and in the extreme northwest and an area of low pressure covers the southwest.

This southwestern low will probably cause showers in this section tonight or Thursday. There will be no decided change in temperature.

NARROW POLICY

OF RETRENCHMENT

Champ Clarkism is again seen in the action of the house in the matter of appropriations for the support of the diplomatic and consular service. The handling of our foreign relations by the department of state has been characterized by "dollar diplomacy," and this, in its broad sense, is a compliment rather than a criticism. The chief function of the department, besides acting in harmony and friendliness with other nations in matters of international concern, is the promotion and protection of our commerce abroad, and in the last few years the department has been of the greatest service in that direction.

Yet the house proposed to cut out the appropriations for carrying on this particular part of the department's work, in order to save about \$94,000 a year. It would eliminate the office of director of the consular service and the division constituting the bureau of information, and the bureau of trade relations, both of which have been proving of inestimable value to the manufacturing and business interests of the country.

The reorganization of the state department has been along exceptionally practical and efficient lines, with the great object in view of lending assistance, support and accurate information to the development of American commerce. Sub-departments have been established, called the Divisions of Latin-American, Far-Eastern, Near-Eastern and European Affairs, and men have been secured whose expert and specialized knowledge would be of the greatest use to American business interests. It marks the foundation and nucleus of a diplomatic and consular service which will give to American commerce and commercial interests abroad the same aid and prestige as are accorded by England and Germany to the development of their foreign trade relations.

It has long been the complaint of the American traveler and commercial agents abroad that our consular service was manned by cheap politicians, who made of us a laughing stock as a nation, and permitted other countries to trench themselves in the foreign trade which the United States sees is now indispensable to our growth. These conditions have been in a fair way to be remedied. Nothing, perhaps, is of more importance to us than that no hindrance should be tolerated to the progress we are making in that direction.

THE WISE MEN OF LA CROSSE

Six aldermen of the city of La Crosse assume that they are very wise men.

They, among others, concluded that La Crosse must have a new water system, and that the river was the place to get the water.

Other citizens preferred wells as a source, while still others wanted no system at all.

Then one of the six invoked the authority of the state railroad commission to COMPEL the people of La Crosse to build a water plant.

The commission investigated, and finally ordered the city to build a WELL plant.

Immediately those who had invoked the power of the commission to COMPEL the building of a water plant raised the objection that it had no such power.

Would they have raised that question had the commission ordered a RIVER plant?

At present the facts upon which the council must base its action are these:

The state railway commission has ordered a well system installed.

It acted upon the authority of Prof. Slichter, of the state university, renowned under-ground water expert; Prof. Slichter's report was that an ample, permanent supply of water of purity equal to Waukesha water and excellent for industrial purposes, exists here.

Prof. Slichter's report was verified by the State Board of Health, Dr. Harper, president.

Those who protested then secured a distinguished engineer, one Maltby, who it was whispered would "show up" the Slichter report.

But Maltby emphatically confirmed the Slichter and Harper reports.

Then the council hired Benazette Williams, another noted engineer; and he confirmed what Slichter, Harper and Maltby had said; and the council hired Alvord and Burdick, famous engineers, and they agreed with Slichter and Harper and Maltby and Williams that the well system was better, and they endorsed the general plans already drawn.

But six aldermen voted against the plan.

We cannot exactly follow the logic of the six aldermen. This paper professes no expert knowledge of the scientific question involved, but it concedes none to any alderman engaged in opposing the water bonds. Those in favor of the bonds claim no personal knowledge; they merely acknowledge recognized authority. Isn't there one among the six wise aldermen who is ready to stop this farce?

THE TRIBUNE AGAIN URGES UPON THIS COMMUNITY THE ADVISABILITY OF ADOPTING COMMISSION GOVERNMENT. Does not this water burlesque prove that WE NEED A BUSINESS SYSTEM OF DOING THE CITY'S BUSINESS?

A New Jersey town proposes to fight fire with aeroplanes. At this rate going to war will be humdrum compared with a fireman's life.

It seems to be a very dull day when the grand old commonwealth of Ohio can't get its name in the paper.

The government in prosecuting the coffee trust evidently has good grounds for its action.

Terror Soon Departed

A musical afterpiece called "The Caravan," or "The Driver and His Dog," produced at the old Drury Lane theater, had as its chief attraction a dog named Carlo, who leaped into a tank of real water on the stage and saved a child.

One day Sheridan, the playwright, went to see the performance of this wonderful dog. As he entered the green room the actor who took the leading part in the piece met him with a sorry face.

"Sir, there is no guarding against illness; it is truly lamentable to stop the run of a successful play like this, but really—"

"Really what?" cried Sheridan, interrupting him.

"I am so unwell," continued the actor, "that I cannot go on longer than tonight."

"You!" exclaimed Sheridan. "My good fellow, you terrified me. I thought that you were going to say that the dog had taken ill."

Filing an Alibi

Parson White precautionary measure of protecting his chicken coop with chilled steel bars was futile, for that very night four more of his choice Leghorns disappeared, leaving the severed bars as the only visible evidence of the theft. However, his suspicions pointed towards his next-door neighbor, whom he had seen prowling around his yard that day, and accordingly, he had this suspect up in the police court the next morning.

"If the prisoner can file an alibi, I'll let him off with a suspended sentence," announced the judge, at the end of the evidence. "Can you file an alibi, Ham?"

"I guess I can," eagerly rejoined the suspect, "if it ain't any harder den Pabson White's chicken coop bars!"

Title Was Inadequate

Uncle Harris, the old negro servant of Colonel Stemmens of Monticello, Ark., approached the colonel one morning and said:

"Could you lemme look into yo' dictionary a minute, Kuhnelt?"

"Dictionary," replied the colonel, "what do you want with the dictionary?"

"Well," replied the old darkey, "I jes' want to find a couple of words to add to my lodge office title, dey done chose me, last night, to be gran' high most worthy exalted imperial plenipotentiary, but it strikes me dat sounds jes' a little bit cheap."

"More women worry over superfluous hairs than any other disfiguring blemish. Wild hairs on face or forearms can be easily, quickly and safely removed by the use of delatone paste. Just mix powdered delatone with enough water to cover the hairs; apply, and after two or three minutes rub off, wash the skin, and the hairs will be gone.

"The luxury of a perfect dry shampoo cannot be equaled. To four ounces of powdered orris root add an original package of therox. Sift a teaspoonful of this mixture on the head, then brush out thoroughly and the scalp will be clean, cool and refreshed, while the hair will be light, wavy and beautifully lustrous.

"To make a true complexion beautifier that will give your skin a lovely tone instantly, yet is harmless and lasting, dissolve an original package of mayatone in a half pint of witch hazel and rub a little on face, neck and forearms each morning. Mayatone will not come off or show like powder and keeps the skin soft, fair and youthful looking.

The Yellow Letter

A FASCINATING MYSTERY STORY. BY WILLIAM JOHNSTON.

Copyright 1911—The Robbs-Merrill Co.

"That all seems logical," I said, "but I fail to see yet what connection there is between General Farish and old Andrew Elser. Nor do I see the connection between the suicide of the old woman in the hotel at Ardway and the suicide of the young woman in the park lake, yet in each of these cases there were yellow letters."

"I do not see it myself, yet," said Davis frankly, "and yet I know it exists. I know the hellish idea that drove them all to death was planned by that distorted brain inside the cottage there."

He was silent for several minutes as he gazed at the rising sun, seemingly absorbed in the glorious spectacle.

"I'll find out!" he said explosively. "I'll make him tell."

"What are you going to do?" I asked. "How will you make him?"

For answer he took from the pocket of his coat two sets of thin steel cuffs, one for the arms and the other for the ankles, and stepped within the cottage. I followed wonderingly and watched him as he turned Young over on his face and, bringing his hands together behind him, snapped on the cuffs. He shackled his feet, too, and then picking up a stout rope, passed it between the two sets of shackles and around a beam in the side of the cottage wall, leaving enough slack to permit the shackled man a small amount of liberty. During the whole operation Young hung limp and apparently lifeless, still in the drug stupor, but as Davis finished his work he began to talk incoherently.

"The shaking up I gave him in fastening him up," said Davis, "will bring him to. He will wake up in a few minutes and then I'll find out everything I want to know. I'll make him tell."

"What are you going to do?" I gasped, "torture him?"

"No," said the inspector grimly, as he dragged a stool over near the couch and placed on it a hypodermic syringe he had found in the cabin, and with it a morphia preparation.

He gaged the distance with his eye, and moved the stool so that while it would be in plain sight of the shackled man when he awoke, it would be utterly impossible for him to reach it.

He eyed his complete arrangements with satisfaction.

"No," he said, "I'm not going to torture him. His drug-racked nerves will do it for me."

CHAPTER XV.

The Torture.

Hell is a place of unsatisfied desires, and in its lowest depths are those, who, writhing in the agony of their decaying nerves, shriek for their beloved morphine and shriek in vain.

Many times in my life I have seen the souls of men, and women, too, put to hard and bitter tests.

Once I saw a motorman whose car had crushed a lovely child. Around him pressed a howling, angry mob, led by the baby's father, who would have had his life. With bold daring, he stood on his platform as on a throne, with his controller bar for his only weapon, and defied them all. Yet, even as he stood there, outwardly so bold, I saw in his eyes a misery as great as a man could bear and live. For days and months I doubt not that his nightly dreams brought him constant horror-pictures of the child he had killed.

Once, too, I had to be the bearer of the news when a workman's misstep on a frame of steel sent him plunging down eighteen stories to death. In the foul tenement where I told my news I saw a tired, gaunt woman walk the floor and scream and moan, three frightened little children clinging to her skirts.

Often, too, in my practice in the courts, have seen men in dreadful misery—a ruffian bold and defiant despite the blood-guilt on his soul, face all the world courageously until the jury's foreman said the word that brought the death-chair's horror to his heart and crumpled him weeping to the floor. I have seen men of good repute sentenced for shameful crimes with their saddened families looking on as they burned with grief and shame that their sins had found them out.

Yet all the concepts that my brain had formed of the utmost in pain and shame and misery faded into insignificance before the things I saw in that rude cottage in the Jersey hills where for two long days Davis and myself kept watch on the fettered master criminal—waiting, waiting, waiting till his drug-tortured nerves should make him tell us the secret of his yellow letters.

Shackled hand and foot though he had found himself when he came out of his stupor, his self-control was at first wonderful. For a few minutes after Davis had fastened his bonds he lay there tossing and twitching, then suddenly opened his eyes—piercing, devilish, uncanny black eyes they were—and tried to sit up.

The rope through the manacles behind him stopped him short and threw him back on his couch. At the same time he caught sight of Davis sitting near the foot of his couch. In silence they eyed each other, neither of them saying a word. Stealthily Young shifted, first his hands and then his feet, as if to ascertain the extent of his

bonds. Finding himself securely fastened, he let his eyes rove around the room, and discovered me. He studied my face sharply, as if to read my mission, but quickly turned his gaze to Davis again, as if recognizing in him his master captor.

Then he laughed—a hideous, chilling, defiant laugh, that ended in an unhealthy gurgle in his throat.

"Well?" he asked inquiringly. I looked for Davis to seize on this propitious moment, when Young, just aroused from drug-slumber, would be weak and nervous, to ply him with questions about the things we wished to know, but the inspector was too much a master of his craft for that. As if he had not heard his prisoner's question, he sat there staring fixedly at the man before him.

One minute passed, two minutes—three, and still Davis sat silent and unanswering. The cumulative force of prolonged silence began to grow on my nerves. This waiting, waiting, was torture. If only one of them would speak. To Young it must have been far worse.

Still they kept at it, Davis staring straight into Young's eyes and Young trying to stare back. For a few minutes he succeeded, and then his eyes shifted and fell. With a master effort of his will he brought them back to Davis and held them steady. There the two of them sat as in a duel, the prisoner's baleful eyes shooting forth venom, hate, murder, while in the other's steady glance was pictured relentless justice.

Pedigree Was Fine, But—

Though nepotism has been known to get good railroad jobs for young men, there is one passenger official in Kansas City with whom family connections do not go very far.

A few days ago the official in question was in quest of an additional man for his office. A friend, learning of his desire, took occasion to write a letter indorsing a young man of his acquaintance.

The letter contained some glowing testimonials of some of the things accomplished by the young

man's ancestors and relatives. But it didn't get very far with the passenger official, who sent the following laconic reply to the young man's indorser:

"Judging from your letter, the young man you recommend must have a good pedigree. However, I merely desire a clerk now, but if I conclude to start a stock farm later, I will let you know and will be glad to give the young man a chance."

A War Story

John W. Harrahan, surgeon-general of the G. A. R., said the other day in Rutland, apropos of Memorial day:

"I recall a story about a youth who, at the height of the war, toured Vermont selling geraniums.

"I am surprised," a patriotic housewife said to him, "I'm surprised to see a big strong, hulking chap like you selling geraniums here. Why aren't you with the army?"

POEHLINGS MOVE TO NEW LOCATION

Big Popular Price Store
Goes to 114 South Fourth
Street; Bank to Occu-
py Former Home

Big vans began work this morning on the transfer of the goods and fixtures of J. J. Poehling & Co. from the building on the corner of Fourth and Main streets, which has been occupied by the company for several years, to the Oyen building, 114 South Fourth street. The building which is being vacated by the Poehling company will be occupied by the State Bank of La Crosse probably this fall. The work of remodeling the future home of the bank will begin immediately. It is said that when it is completed this corner will become one of the best equipped business establishments in the city.

The Poehling's new store gives the big popular price establishment one-third more floor space than they have had in their Fourth and Main street location. They will occupy the first and second floors of the new place with the main business on the first floor. The millinery department will occupy the second floor. Several improvements will be made on the both floors in the near future. There will be no change in the policy of the firm.

It is expected that the work of moving will be completed by Friday.

CHAFIN TALKS IN ONALASKA JUNE 6

Prohibition Candidate for
President Campaigns for
Votes; State Con-
vention Soon

Eugene W. Chafin, the prohibition campaigner is finishing up his month's meetings in Wisconsin this week. He has been pretty well over the central and southern parts of the state, speaking two and three times daily, and lining the "dries" up to attend the state convention to meet at Madison on Tuesday and Wednesday of next week in the Assembly Chamber. Mr. Chafin says that the prohibitionists are as determined as ever and propose to put up one of their old time fights this year. His address, "Government by Administration," is being received most enthusiastically by the rank and file, many of whom pronounce it to be the greatest speech that Chafin has yet delivered.

The state convention at Madison next week will give considerable attention to platform building. Wisconsin has taken an advanced position as to vigorous party policy and the platform of this year will no doubt declare that a prohibition law is unnecessary in the solution of the drink problem and that all restrictive and regulatory laws are superfluous and will be repealed when the party gets into power; that what is needed is not legislation but administration. The party will also take a strong stand on other important questions including a hearty endorsement of Woman's suffrage. It will be a progressive platform all along the line and the leaders say, clearer in statement than any other party platform that will be presented by any party in Wisconsin. The state convention will elect delegates to the national convention in addition to those elected at the April primary in order to conform to the call of the prohibition national committee. Wisconsin will be represented at the national convention at Atlantic city. Among those who are planning to attend are: J. E. Clayton of Milwaukee; W. F. Perry of Waldo; Mr. and Mrs. A. F. Collins of Fond du Lac; J. L. Smith of Madison; H. H. Tubbs of Walworth; Mr. and Mrs. Levery White of Maiden Rock; G. A. Paddock of Beaver Dam; Mr. and Mrs. M. M. Riley of Milwaukee; W. P. Nehercut of Milwaukee; D. W. Emerson of Emerson; and Waldemar Ager of Eau Claire.

Chafin's remaining Wisconsin dates are as follows: Wednesday, June 5, afternoon, Evansville; Fairfield, near Baraboo, evening; Thursday, June 6, morning, Onalaska; Sparta, afternoon and evening; Friday, June 7, Baraboo, afternoon; Reedsburg, evening; Saturday, June 8, afternoon, Stoughton; Muscola, evening; Sunday, June 9, morning, Millville; afternoon, Patch Grove; evening, Bloomington; Monday, June 10, evening, Barneveld; Tuesday, June 11, evening, Assembly Chamber, Madison.

The Grasping Salt
Mayor Gaynor, at Washington Market, where the Housewives' league of New York has come to do its marketing, as a protest against the high prices of the shops, said with a smile to a group of elegant protestants:

"You women are wise to make this protest. You must show the provision dealers that it won't do to be too piggy. Show them that piggyishness like that of Captain Salt is not the touchstone of success."

"Captain Salt once behaved with considerable heroism in a collision at sea, and his company wished to present him with a gold watch. Accordingly, Salt was invited to a board meeting, and there, in a luxurious room on the thirteenth story of a skyscraper, amid a throng of millionaires with white side whiskers, a superb gold watch was duly presented to the mariner in a neat speech.

"And how did Capt. Salt receive that beautiful watch? He took it in his big red hand, frowned, and said: 'Where's the chain that goes with it?'"—New York Tribune.

LOGANS DEFEAT FRENCH ISLANDERS

In a heavy hitting game the Logans defeated the French Island baseball team Sunday afternoon on the Cargill diamond by the count of 14 to 13. The combat was exciting at all times, neither team being able to get much advantage over the other, and the lead was with one team and the other many times. Neither team was sure of a victory until the last of the ninth, when Heinke of the Logans doubled and scored on a two-bagger by M. Swennes.

The game was featured by home runs by M. Swennes and Heinke of the Logans, and the playing of C. Miller at shortstop for the French Island nine.

FISHING IS GOOD ON NORTH SIDE

French Slough and Black
River Filled with Fish
by the High
Water

Fishing in Black river and French slough and French lake is better this spring than ever before, according to fishermen who have fished in these waters for many years. A large number of good sized pike are being caught every day and scarcely a day passes but what a big catch is reported.

Almost as soon as the river opened up this spring parties started out in search of the best fishing grounds and they have been found in numerous places.

One reason advanced for the good fishing in 1912 is that the water in Black river and in French slough is higher this year than in several preceding seasons. Last year as well as the year before the water in Black river was at an exceptionally low stage, so low that the fishing was poor and few catches were made. The high water of this spring has changed these conditions.

Every day parties are to be seen fishing in Black river and in the slough at French island, most of the fishing in Black river being done at or near the bridge.

HAND REVEALS RECENT MURDER

BUFFALO, N. Y., June 5.—A hand protruding as if in supplication from a rough grave, hurriedly dug beside the road, revealed the most gruesome murder. Two boys driving cows beyond the Buffalo City line made the discovery. The dead man was evidently a foreigner about 35 years old. The police believe the man was murdered in the city. Medical Examiner Danzer said the man had been dead at least three days.

'T WAS TERRIBLE DREADFUL

How a Virginia Lady Expresses Her Feeling Regarding What She Had to Go Through, for Nearly 20 Years

ALKA, Va.—"I can only say that it was terrible, dreadful, what I had to go through during nearly 20 years," writes Mrs. Jane Large, of this place. "Womanly trouble was back of it all, and would be now, had it not been for that best medicine on earth, for women—Cardui."

It cured me. I am as well as I ever was, and feel not the least symptoms of any trouble now.

I am satisfied that a medicine which could relieve such a terrible case as mine was, will also help other ladies who suffer from such troubles.

I cannot recommend Cardui too highly. Its use has done me more good than any other medicine I ever used."

In the light of this experience, you may well decide that, no matter from what form of womanly trouble you may be suffering—and all women suffer at times—it will benefit you to take Cardui.

This well known woman's tonic owes its long continued success to the action of its purely vegetable ingredients on the womanly organs and functions.

It has been found to gently strengthen, regulate, build, and thus, in a natural manner, restore health.

Try Cardui. It will help you.

GOMPERS DENIES BRIBE

PRESIDENT OF A. F. OF L. DE-CLARES FRANKLIN'S TALE OF BRIBERY IS FALSE THROUGHOUT

WASHINGTON, June 5.—"Any statement that I furnished money to Attorney Darrow in the McNamara case for the purpose of bribing talesmen or jurors is absolutely untrue," said President Gompers of the American Federation of Labor here late yesterday afternoon.

When shown a despatch and detailing Detective Franklin's testimony, Gompers was greatly angered.

"I do not believe Darrow made any such statement," he declared. "I never handled a penny of the money sent there and I certainly did not send any for bribery."

"As a matter of fact," Gompers added, "Darrow has already testified under oath that not a single dollar of the money he used came from me. The story is absolutely false."

On Saturday, June 8th, the ladies of the First Baptist church will give an excursion to Winona on the palatial new steamer, G. W. Hill. This is the first appearance of this boat in these waters and those who take advantage of this excursion will be assured of every comfort. The boat is large, with plenty of deck space, comfortable, roomy and fast, and the owners guarantee her schedule.

The boat will leave La Crosse at 2 p. m., arriving at Winona at 5 p. m.; leaves Winona at 7 p. m. and arrives at La Crosse at 9:30 p. m. Those who wish may bring a basket lunch.

GOPHER LEGISLATURE IS SPECIAL SESSION

ST. PAUL, Minn., June 5.—The fourth extraordinary session of a Minnesota legislature opened yesterday morning with the prospect of a deadlock between the two bodies over the legislative program.

The preliminary formalities of the opening of a session were no sooner over than resolutions were adopted in both houses, limiting the consideration to certain legislation.

Differences between the two bodies will be fought out in conference. Should the house and senate leaders persist in adhering to the programs decided upon by both bodies, the extra session may be "fighting it out all summer."

BATTLESHIP DENTS BOTTOM ON REEF

ROCKLAND, Me., June 5.—The dreadnaught Arkansas, Uncle Sam's newest battleship, which was making her trials off here, struck a reef off the Maine coast and badly dented her hull, according to a report which reached Rockland yesterday afternoon. The ship will be able to finish her trial trip after small repairs, according to the report. The double bottom alone saved the vessel from sinking, as she was outside the harbor when she scraped for 45 yards over a thick reef of jagged stone ledge.

CLINTON, MASS., STRIKE LEADER SCOUTS STORY MILL WORKERS ARE CONSPIRING TO BLOW UP DAM

CLINTON, Mass., June 5.—"If any dynamite is brought to Clinton for unlawful purposes, it will be brought here by persons of the ilk of John Breen, the school commissioner and politician of Lawrence, Mass., who a few days ago was fined \$500 for 'planting' dynamite during the great Lawrence industrial war to throw discredit on the strikers there," said Dennis J. Callahan, the leader of the striking Lancaster textile mill operatives, answering printed charges that the strikers have threatened to blow up the great Wachusett dam of the Metropolitan Water system with dynamite.

LANG TRIES HAND AT "ARCHITECTING"

That James Lang, assistant clerk of circuit court, is an architect, is something that has hitherto been unsuspected by even his oldest friends, but if anyone had dropped into his office this morning and seen him drawing the plans and specifications for a section of the circuit court room in Dubuque, he would have found that when it comes to plain and fancy architecting, the local custodian of records and documents has the rest of them "lashed to the mast."

The occasion of Mr. Lang's new industry this morning was a request from Judge Robert Bronson of Dubuque, Iowa, for a plan of the jury box and judge's desk, after which that part of the court room at Dubuque will be modeled.

"Some class to that, eh?" said Mr. Lang, exhibiting an elaborate plan with all the required specifications of the local room. "I guess they will be able to build a regular court house if they follow these directions."

COMMENCEMENT AT FARM SCHOOL

Olive Otterness and Freeman Lupie Give Graduation Theses; McConnell Speaks

HE SPEAKS ON PROGRESS

Reception Held for Parents and Friends After Exercises; Dance Ends Program

The second annual commencement exercises of the La Crosse County Agricultural and Domestic Science school were held in the school auditorium at Onalaska yesterday afternoon.

Of the graduates, twenty-four in number, two, Olive Otterness, winning first honors among the girls and Freeman Lupie, winning first honors among the boys, delivered the graduation theses upon subjects pertaining to the lines of work they had studied at the school.

Miss Otterness' subject was "The Educated Woman in the Farm Home" and Mr. Lupie spoke on "The Conservation of Soil Fertility."

McConnell Speaks
The Hon. J. E. McConnell, of La Crosse, delivered a splendid commencement address on the subject of "The Scientific Spirit."

He said the great development of modern times was the result of a modern spirit of scientific investigation. He said the development of science is a wonderful story and he told how in the last fifty years the one horse plow has given away to the steel gang plow and the cultivator has succeeded the hoe. He also spoke on the great inventions of modern times and on the work of the university and its usefulness.

Musical numbers were rendered by the school glee club and the orchestra.

Soil Basis of Wealth
In speaking on "Conservation of Soil Fertility," Mr. Lupie said, "Soil is the basis of our national wealth. While the farmer is prosperous, men of other professions are prosperous and when prosperity fights shy of the farmer other professions lack prosperity. Thus the problem of keeping our soil at a standard of high production is worthy of careful thought and attention by the American people."

"During the early years of our country the soil was rich enough to make farming profitable without paying attention to the conservation of soil and this led to careless and unbusiness like methods."

"The large amount of farm land in the eastern states which has been abandoned shows the result of not conserving the soil fertility."

Woman Has Mission

Miss Otterness divided her address into the following subheads: Origin, place of woman in primitive home, woman's place in early farm homes of America, development of country, woman's place in farm homes of today, the educated woman in the farm home and influence of an educated woman on the farm and in the community.

She said in part: "Besides the influence which an educated woman has in the farm home, she has a mission to perform in raising the standard in the school, the church and the social life of the community in which she lives."

At the close of the exercises a reception was held for the parents of the graduating students and their friends. The annual alumni dance was held last night.

SENATOR NEAR DEATH.

WASHINGTON, June 5.—Senator George S. Nixon of Nevada cannot outlive the day unless there is a remarkable improvement in his condition, according to a statement authorized by his physician at 9:00 o'clock.

"The end is very near," he said. "Senator Nixon is suffering from cerebro spinal meningitis."

Very Few Copperheads.

The copperhead, although deadly venomous, seldom attains a length of more than three feet, and is, fortunately, not plentiful, comparatively few people having ever seen one. Its favorite habitat is a rocky, mountainous woodland, and never an open meadow.

Queer Burial Customs.

The attempt made by thieves to plunder the grave of a famous Parisian actress reminds a writer in the Journal des Debats that the ancient custom of depositing valuables in tombs still prevails in France. But it is not only jewels and the like that are buried with the dead.

A few years ago it was the custom in La Vendee to put a polished stone within reach of the corpse. This was supposed to guide the dead on their new journey. In the district of Dinan a piece of consecrated bread was used for the same purpose. The people of the Bordeaux district place in the coffin a sprig of myrtle blessed at Easter. This is considered to insure entry into paradise.

On the borders of Brittany and Poitou a little pebble is placed on the tongue of the deceased. Without this it is thought he might plead his cause before the great tribunal with such volubility as would insure his condemnation without appeal.

KERN DISCUSSES CONTRADICTIONS

Points Out Incompatibility of Testimony Given by Witnesses in Lorimer Case

WASHINGTON, June 5.—Contradictions in the testimony of witnesses during the Lorimer hearings were analyzed by Senator Kern of Indiana in the second day's installment of his attack on the Illinois statesman, in the senate today.

"The record shows a sharp issue of veracity," he declared, "between Clarence S. Funk, general manager of the International Harvester company and Edward Hines, a millionaire lumber dealer of Chicago, who seems to have been one of Senator Lorimer's chief supporters, concerning a conversation which occurred between them a few days after the sensational election."

Kern related Funk's version of the conversation at which Hines was alleged to have remarked that "we put Lorimer over, but it cost \$100,000."

Kern was bitter in his sarcastic reference to Hines. "This veracious witness," the "gifted Hines," and "this voluble talker," were some of the shafts at the millionaire lumber man. He was particularly severe in his condemnation of the alleged "Senator maker" for his unqualified denial of the story told by Miss Seever, telegraph clerk in a Washington hotel, that Hines had attempted to bribe her in order to see a telegram sent by one of the senate committee investigators.

MAN AND WOMAN GET THIRTY DAYS IN JAIL

Changing their plea to "guilty," Fred Meyers and Luella Bachman were sentenced to thirty days in the county jail by Judge John Brindley in county court this afternoon. The couple were accused of registering at a down town hotel as man and wife without the legal right to do so. They pleaded not guilty when arraigned, but after a trial lasting nearly all morning they changed their plea in hopes of obtaining leniency. The complaint against the couple was made by Luella Bachman's husband.

Just Try It.
Set about doing good to somebody; put on your hat, and go visit the sick and the poor; inquire into their wants and minister to them. Seek out the desolate and oppressed. I have often tried this medicine, and always find it the best antidote for a heavy heart.—John Howard.

The Elements of Joy.
The delights of thought, of truth, of work, and of well doing will not descend upon us like the dew upon the flower, without effort of our own. Labor, watchfulness, perseverance, self-denial, fortitude, are the elements out of which this kind of joy is formed.—S. C. Jones.

As to Buying.
Whatever we wish to buy, we ought first to consider not only if the thing be fit for us, but if the manufacture of it be a wholesome and happy one; and if, on the whole, the sum we are going to spend will do as much good spent in this way as it would if spent in any other way.—Ruskin.

Pupils and the School Clock.
High school pupils do better work when their eyes are not fixed on the clock. This opinion was expressed unanimously by the school board yesterday afternoon and a proposal to put a clock in every room in the city's high schools was abandoned.—St. Paul Pioneer Press.

England's Forests Gone.
The forests for which England was at one time famous have vanished or only exist in the attenuated form of carefully preserved woods and parks, from which can be obtained only a fraction of the supplies needed.

Victory Lies in the Will.

Rebekahs—President, Mrs. Ruth Loneragan, Grantsburg; vice president, Mrs. Elsie Lautenbach, Milwaukee; warden, Mrs. Bertha Noble, Stevens Point; secretary, Mrs. Emory Perry, Rosendale; treasurer, Mrs. Jennie Howe, River Falls.

The foregoing officers were elected at this morning's session of the Odd Fellows and Rebekahs. The remainder of the officers in both organizations will be appointed tomorrow, when all of the officers will be installed.

WOODMEN PICNIC AT SPARTA TODAY

Hundreds of members of the Modern Woodmen of America of the La Crosse district are attending the annual picnic which is being held at Sparta today. A large number of the members from the La Crosse camps left this morning. The representatives of the Uniform Rank, representing the various local camps, will take part in the competitive drills. Games and amusements of all kinds were in evidence at the picnic grounds during the day. The La Crosse Woodmen will return tonight. Woodmen from all of the villages and towns in the surrounding counties left for Sparta this morning.

SMITH FUNERAL TODAY

The funeral of Adolph Smith was held this morning at 8:30 o'clock from the residence, 1225 Adams street, and from the Holy Trinity church at 9 o'clock and was largely attended by many friends and relatives. Rev. Riesterer officiated at the services.

The pallbearers were Frank Lonkuskie, Albert Bergus, John Pitz, William Pitz, Nic Birnbaum and Frank Wester. Interment was made in the Catholic cemetery.

Puzzled Mother.

A Bowen high school boy's mother protests against the way algebra is taught in that school. She complains that they haven't revised the text book since the price of eggs went up. How such a backward book as that can prepare children for the active duties of life is more than she can understand.—Chicago News.

Folly of Worry.

Worry is overwork of the most disastrous kind; it means to drive the mental machinery at an unreasonable and dangerous rate. Worry gives the brain no rest, but rather keeps the delicate cells in constant and continuous action. Work is wear; worry is tear.

WATCHING THE SCOREBOARD

"Twas a hilarious forewell the Giants gave the Cards, 'O! yoi, oi,' yelled Napoleon McGraw after the Cardinals made eight runs in the seventh inning. But the Giants put the game in camphor in the next frame. There is only one reason why the Yankees are in next to last place. It's St. Louis. Again the Browns lost to St. Louis.

For the third time in four days young Pat Regan was relieved from Brooklyn's mound and the rollicking Reds made it three straight.

The Naps were gay on Lajole day and trimmed the Red Sox. Gregg struck out eleven men.

The Yankees had men on bases in every inning except the seventh, but cashed only once.

Once more was O'Toole, Barney Dreyfus' prize disappointment, knocked off the rubber. Then the Phillies beat up Cole, lately of Chicago. Errors gave the Cubs their brace of runs, although Tyler allowed Chicago only four hits and himself scored Boston's run with one of his three hits.

Two hits as a sacrifice and an error by McInnis gave the White Sox two runs and with Lange's pitching allowed them to whitewash the Athletics. Morgan gave the Sox three bingles.

Twenty-three points separate third and sixth places in American league.

DARROW HAD USE OF DEFENSE FUND

Was Given More Than \$200,000 by Secretary of A. F. of L. from Money for McNamaras

LOS ANGELES, Cal., June 5.—District Attorney Fredericks sprang a sensation in the Darrow bribery trial today when he introduced in evidence a check for \$10,000 drawn by Secretary Morrison of the American Federation of Labor in favor of Clarence Darrow. This was indorsed by Darrow and cashed in a San Francisco bank by Olav Tviemoe, Deputy District Attorney Ford stated that the state would trace this money to Bert Franklin, star witness for the state, who alleges that he bribed jurors in the McNamara case at the request of Attorney Darrow.

LOS ANGELES, Cal., June 5.—H. L. Flather, cashier of the Riggs National bank, of Washington, D. C., testifying in the Darrow bribery trial today, identified checks for more than \$200,000 drawn by Mr. Frank Morrison, secretary of the American Federation of Labor, in favor of Clarence S. Darrow, the defendant in the present case. The funds raised by the American Federation for the defense of the McNamara brothers were deposited by Mr. Morrison, as treasurer of the fund, in Flather's bank.

The books of the bank show that one check was drawn on Dec. 1, 1911, the day John and James McNamara pleaded guilty to blowing up the Los Angeles Times, was cancelled by Morrison. The defense objected strongly to this line of testimony and a heated argument followed. District Attorney Fredericks explained that the state would show that one check Darrow received from Mr. Morrison was not cashed in Los Angeles, but in another city and that the currency was brought here.

COMMITTEE VIEWS STREETS AND WALKS

The street and alley committee of the city council spent yesterday afternoon in inspecting the streets and sidewalks of the city. Following the tour of the city they recommended several streets and walks for improvements and submitted a report to the city engineer. They will make a trip to La Crosse next week for the purpose of inspecting the road. It is probable that they will try to find a convenient source of gravel supply which may be used should they decide to take action on improving the road.

A special meeting of the water committee has been called for tonight, after which the committee on special street improvements and sewers will hold a meeting.

SMALL FIRE IN FOUNDRY

A small fire in the cupola of the James Foundry on Jay street at 7:30 o'clock last night, resulted in \$200 damage. Shortly after 9 o'clock a fireman who had been left on watch telephoned to the central station asking that the hosecar be sent out as the fire had again broken out. The second fire was easily extinguished.

ARCHBALD'S FATE WITH COMMITTEE

Believed Certain the House Will Recommend Impeachment Proceedings

WAS MIXED IN MANY DEALS

Judge of Commerce Court in Dickers with Railroads Bringing Cases to Him

WASHINGTON, June 5.—Taking every precaution to secure secrecy, the house judiciary committee today began its consideration of evidence developed against Judge Robert W. Archbald, in the impeachment investigation. The committee planned to meet today, but formal session was postponed. Tomorrow the members will confer behind closed doors and determine their report.

Today it was evident that party lines were abolished in the Archbald case. Political considerations, it is staunchly maintained by the committee, will have no weight in reaching a finding.

Judge Don't Sit
While the committee is debating his fate, Archbald, with his two sons, is remaining in Washington. The judge is not sitting with the commerce court.

No direct hint of its probable action leaked from the committee room today. But privately several members emphatically expressed opinions that impeachment of Mr. Archbald would certainly be recommended. However, they admitted such a decision would not be unanimous.

Briefly, the principal evidence upon which these committee members base their contentions are: Archbald sought to lease refuse, or culm coal piles from the Erie, Lackawanna and Lehigh Valley railroads, visiting railroad officials in their offices, and writing letters on commerce court stationery.

Promissory notes, indorsed by Archbald, were presented to clients and attorneys who had cases in his court, either during or just after disposition of their cases.

Archbald sought the private views of Helm Bruce, attorney for the Louisville & Nashville railroad before giving his decision in rate cases affecting the railroad.

Witnesses also declare Archbald was interested in a prospective commission for sale of William P. Boland's Marion Coal company at Scranton to the Lackawanna railroad.

In Many Dickers
Archbald was involved in almost countless private "dickers" for railroad coal land leases, being in frequent communication with petty officials and presidents of railroads.

This evidence, it is contended, shows Archbald clearly guilty of at least indiscreet conduct.

Defenders of the judge declare, however, that no evidence of any wrong doing, official or personal has been brought out; that it is not demonstrated that he decided any cases favorable to railroad interests or made any improper overtures. They contend he has not transgressed judicial decorum by his private deals.

WARS ARE TROUBLOUS

BOSTON AND MASSACHUSETTS IN THROES OF GREAT INDUSTRIAL CRISIS TO DAY

BOSTON, June 5.—Boston and Massachusetts today face one of the greatest industrial crises in the history of the state.

In Boston relations between the Boston Elevated Street Railway company and its employees grow hourly more strained. These were decided unbusiness among hotel men today following the strike of 20 waiters at the Olympic hotel, and an ultimatum served on managers of the Torcas and Highlands hotels. The Parker house and Touraine and Young's hotels, the three largest in the city, were informed they must recognize the union and run closed shops. At Clinton from 700 to 800 weavers at the Lancaster Textile mills are on strike. While the situation in Lawrence seemed better today, police officials made preparations to swear in reserve deputies at the first sign of trouble.

MISS ALMA GROSS DIES IN OKLAHOMA

Relatives in this city today received word that Miss Alma Gross died at her home at Oklahoma City. Miss Gross is the daughter of S. A. Gross, formerly a prominent contractor in La Crosse. She was well known here and left the city eight years ago.

The funeral will be held at Oklahoma City.

COBURN PLAYERS OF HIGHEST ORDER

Come to La Crosse Under Auspices of Normal with Record of Achievements

PRESENT A CLASSIC DRAMA

Organization Is Unique in American Theatrical Life; Play at Myrick Park

The Coburn Players will come to this city for three performances of classical plays at Myrick park with a long record of scholarly achievements, and their presentations of classic dramas are promised to be artistic and complete in every particular, assuring playgoers of a dramatic offering of the highest order.

The Coburn Players is an organization unique in American theatrical life. They are banded together with the single purpose of devoting their talents to the presentation of poetic drama, and their work is said to be characterized by sincerity and a simplicity that emphasize both the literary and dramatic interpretation of their productions.

The Coburn Players, famous for their open air presentations of classic drama are to give their performances at Myrick park under the auspices of the normal school beginning Friday evening, when they will present "Canterbury Pilgrims."

Recognition of their unique combination of entertainment and educational value has resulted in the Coburn Players' performances being incorporated into the course of English in many of the schools.

Shakespeare's "Taming of the Shrew" will be played Saturday afternoon and in the evening the famous "Electra" of Euripides will be staged. In case of inclement weather the company will give its performances on the normal school stage.

ADVISES BARNES TO BEWARE OF COLONEL

NEW YORK, June 5.—Before starting for Chicago at 4 o'clock yesterday afternoon, Senator Dixon, campaign manager for Theodore Roosevelt, after a conference with the candidate, said:

"It is not humanly or physically possible for Mr. Taft to get a majority of the delegates at Chicago. His campaign has collapsed and that will be seen on the first ballot."

"Regarding the statement of William Barnes, Jr., I will say that if I were Mr. Barnes, I would not get into a controversy with a man like Theodore Roosevelt because of the existence of a certain state document."

It was believed that Senator Dixon referred to the report of the legislative committee that a year ago conducted an inquiry into conditions existing at Albany. Continuing, Senator Dixon said: "The Taft people captured the six delegates at large in Ohio by true three-card monte policies and what they have done is a contrast between the methods of Roosevelt and Taft."

AMERICAN PROPERTY BURNED BY REBELS

WASHINGTON, June 5.—The Santa Cecilia plantation, one of the largest and richest in Cuba, owned by Americans, was burned by negro rebels yesterday, according to state department dispatches. No details were given, but it is thought that American marines may be rushed immediately to guard other plantations in the vicinity. The news of the burning is thought here to mean that rebels are beginning their long deferred depredations against American property to bring the Cuban government to terms.

Quickest Relief Known For all Sore Feet

The following is absolutely the surest and quickest cure known to science for all foot ailments: "Dissolve two table-spoonsful of Calocide compound in a basin of warm water. Soak the feet in this for full fifteen minutes, gently rubbing the sore parts." The effect is really wonderful. All soreness goes instantly; the feet feel so good you could sing for joy. Corns and callouses can be peeled right off. It gives immediate relief for sore bunions, sweaty, smelly and aching feet. A twenty-five cent box of Calocide is said to be sufficient to cure the worst feet. It works through the pores and removes the cause of the trouble. Don't waste time on uncertain remedies. Any druggist has Calocide compound in stock or he can get it in a few hours from his wholesale house. It is not a patent medicine but is an ethical preparation.

WHY the PAIGE is a Better Car

WE HAVE told you repeatedly the Paige car is a better car than other medium-priced cars. We have told you *where-in* it is better—in its carefully tested motor, its ground cylinders, its multiple disc cork insert clutch, its unusually complete equipment and its beauty of design.

Now we want to tell you *why* it is better—why we can build it better—and *do* build it better—than other cars which sell for Paige prices, or thereabout. These are *some* of the reasons:

BECAUSE the Paige-Detroit Motor Car Company has ample capital to conduct its business and is not dependent on advance deposits from dealers with which to manufacture the cars afterward.

BECAUSE all of the seven Paige models are built on one chassis and with the same unit power plant, thus permitting concentration on one construction design and simplifying our manufacturing processes.

BECAUSE our output (3500 cars for 1912) is large enough to enable us to buy all materials at the lowest possible price. If we built four times as many cars we couldn't buy our materials at lower prices in the same quality.

BECAUSE we put every single dollar possible into materials and workmanship and don't try to save money "under the hood" in order to include extra accessories which may be good selling arguments, but do not make for durability, efficiency and after-service in the car itself.

BECAUSE the Paige official organization is made up of a great group of successful business men who are manufacturing and selling the Paige Car on a strictly mercantile basis—not just for this year or next year but for years to come; building and selling not a "get-rich-quick" car, but a car which shall endure.

These are a few of the *fundamental, essential* reasons why the Paige is a better car than others in its price field.

Study the car carefully. If you are not an expert on automobiles bring an expert with you when you investigate the Paige.

CLAIMS OHIO IS STRONG FOR TAFT

COLUMBUS, Ohio, June 5.—Harry M. Daugherty, one of the six delegates at large, gave out this statement this afternoon:

"I have always believed and now believe more than ever that Ohio is for Taft by at least four to one."

"If we are to continue with the preferential primaries, I am favorable to the enactment of a bill which will make the primary law as strong as the election laws and result in getting out a larger percentage of the vote and a fuller expression from the people at the primaries."

"Ohio will go to the Chicago convention with a divided delegation, of course, but it went to the convention four years ago with a divided delegation."

"I am firm in the belief that President Taft is the strongest man in the country. Every state which supported him four years ago will support him this year and he will have additional states in his column."

WOLGAST OFFERS TO MEET NELSON

CHICAGO, June 5.—Ad Wolgast, lightweight champion, who is on his way to the coast today, stopped in Chicago yesterday long enough to meet some of his friends and to shake hands with Battling Nelson, from whom he took the title which he now holds. Nelson told Ad he would like another try for the championship and Wolgast offered to give him the chance any time. Wolgast asserted that in the future he would insist that whoever met him should make 133 pounds at ringside. This is predicted will eliminate Packer McFarland from a championship battle.

CARROLL COLLEGE COACH RESIGNS

WAUKESHA, Wis., June 5.—After three years of successful service in the capacity of instructor of athletics at Carroll college, Coach W. C. Bleamaster has handed in his resignation. He came here from Grinnell, Ia., and succeeded in whipping out a championship eleven the first season here. Until that time Carroll had never figured as an important contender in athletics. Since then Carroll has forged rapidly to the front, taking second in the state track meet last year, defeating Ripon this year, and would probably have won this year's state meet but for the loss of five stars of the team through a quarantine at a fraternity house.

The success of athletics since he came to this city, has caused the Carroll school board to regret his final move. It is probable that he will accept a position with a larger school although he has made no announcement to that effect.

REPRESENTATIVE AND REPORTER BATTLE

WASHINGTON, June 5.—A one round fist fight between Representative Thomas and Joseph Annan, a reporter for a Washington newspaper, was the dramatic climax attending the closing of the Archbald impeachment inquiry of the house judiciary committee late this afternoon. Thomas objected to an article written by the reporter, and called him out into the hall. Their loud words caused the committee to close its doors. The representative and the reporter came to blows on the marble floor, scratching each others' faces and pulling hair until bystanders interfered. A capitol policeman was called, but no arrests were made, a ruffled dignity and a few face blemishes being the sum total of the casualties.

WESTERN ATHLETES TO REPRESENT U. S.

NEW YORK, June 5.—The American Olympic committee has notified a dozen Pacific coast athletes that they have been tentatively picked to represent the United States at Stockholm next July. The athletes are: Allen, broad jumper; Beeson, high jumper; Bellah, pole vaulter, and Javelin thrower; Courtney, sprinter; Donahue, all around man; Edmundson, middle distance runner; Gerhardt, sprinter; Hawkins, hurdler; Horine, high jumper; Kelly, hurdler; McCune, 1500 meter runner, and Rose, weight man.

WISCONSIN NEWS

DEPUTY SHERIFF FACING PRISON

FOND DU LAC, Wis., June 5.—Whatever the merits of the ancient adage that "it takes a thief to catch a thief," Sheldon H. Barrett, on parole, following his arraignment for alleged forgery and subsequent conviction to four years in state prison, was appointed deputy sheriff.

So on Saturday he was sent to Green Bay to bring back James O'Hare. On the trip down the deputy securely handcuffed his prisoner's hands and went to sleep on the soft cushions of a chair car. When they came to the first station the prisoner got off.

When the sheriff awoke some time later he also got off, but it was off the water wagon. Later he was arrested on various charges associated with excessive drinking, and on Tuesday was brought here by Undersheriff W. J. Zeve. As the case will be reported to the state parole board, it is thought Barrett will be forced to serve his four year prison term.

UNIDENTIFIED BOY KILLED BY TRAIN

MILWAUKEE, June 5.—An unidentified boy about 18 years old was instantly killed Tuesday morning when he was struck by a train near Wilcox avenue.

The young man was attired in a cravenette coat, light gray suit, and wore a bathing suit beneath his clothes. In his pockets were found a bar of soap and 7 cents.

The body is at the morgue.

RADIUM CURES AMERICAN

LONDON, June 5.—The demand for treatment at the British radium institute established in London on the initiative of the late King Edward has increased so rapidly that it has been decided to augment the staff and receive patients until 11 o'clock at night. Of the many persons treated since the opening of the institute last August several have been cured. Among these was an American who came especially for treatment for a rodent ulcer. He is now on his way home, sound and well.

Pirnew, hotel and saloon, livery stable; A. Wagner, general store, postoffice; A. Mosack, blacksmith shop and dwelling. The estimate loss is \$15,000, partially covered by insurance.

FIREMAN DIES IN DREAM

CHICAGO, June 5.—Joseph H. Ballet of Engine company 51, was found dying today at the foot of the sliding pole in his engine house. Firemen who were in the dormitory at the time, said they believed the lieutenant dreamed he was answering an alarm and rushed to the pole hole, plunging 16 feet to the floor below.

SCHMIDT MURDER CASE BEFORE JURY

FOND DU LAC, Wis., June 5.—That Robert Prill, on trial charged with the murder of Edward Schmidt, shot his victim twice before finally clubbing him to death, was the contention of the state, based on the testimony of physicians who examined the body of the dead man the day of the killing, and offered in court today. A new angle to the case developed today when it was reported that the presence of District Attorney B. A. Husting of Fond du Lac county, was here for the purpose of establishing the contention that Prill had killed Schmidt, not in self defence, but to secure money which the dead man had coming to him, and was supposed to have with him, amounting to more than \$100.

The Civil War Through the Camera

A New History by Henry W. Elson, Illustrated by the Famous Brady War Photographs

(Published by Co-operation of the United States War Department and of Patriotic Societies North and South.)

In Sixteen Suberb Sections

EACH TELLING A COMPLETE STORY

One Issued Each Week by The La Crosse Tribune.

Aided by the Secret Service, Matthew Brady, the famous photographer, penetrated into many camps and battlefields, taking the most remarkable series of photographs ever made. In fact, this was the first great war to yield its records and secrets to the camera, as that instrument had been perfected only a short time before the Civil War broke out. Some of Brady's pictures were bought by the government, while others were sold for debt and became scattered and lost. Now at last they are found again—the heritage of a grateful nation. Many other war-time photographs have also been unearthed from their hiding places, North and South, and here find place in a consecutive story of the War, issued in sixteen sections. Each section is complete in itself, but you cannot afford to miss any of them.

Section One Ready Now

With Beautiful Color Frontispiece

SECTION ONE—Ready this week—deals with the outbreak of hostilities and the Battle of Bull Run: Professor Elson's story gives the reader all the essential facts in a vivid way.

For illustrations, there is a beautiful colored plate, The Battle of Bull Run; and the following war-time scenes reproduced directly from the rare photographs: Views of Fort Sumter and its Commander, Fort Sumter after the Bombardment, Its Appearance while in the Hands of the Confederates, A War-Time Mass-Meeting in New

York Pledging Support to the Union. The Cabinet of President Davis. General McDowell, the Defender of Washington. General P. G. T. Beauregard, the Southerner of the Hour in '61. The Minnesota Volunteer Regiment that Fought at Bull Run. Mrs. Greenhow, the Confederate Spy, who sent the News of McDowell's Advance to Beauregard. Union Troops from Rhode Island. New York, New Jersey, Pennsylvania and Vermont. Scenes of Bull Run Battlefield. Prisoners of the Confederacy in Castle Pinckney, Charleston Harbor.

JUNIOR PROM TO BE INEXPENSIVE

Committee and the High School Authorities Will Discourage Hiring of Carriages

ADMISSION FEE IS REDUCED

Year's Activities of School to Be Closed by Big Ball at Germania Hall

The advanced junior class committee has completed arrangements for the "junior prom" which is an annual affair for the junior class of the high school. The prom will be given on commencement night as has been the custom in the past. The Germania hall has been engaged for the event and it will be profusely decorated for the affair. Owing to the lateness of the starting of the commencement exercises which are held at the theater, dancing will not start until 10:30. At one of the meetings of the Parents' and Teachers' Assn. much discussion was held upon the lateness of the hour of dancing at the prom so the committee decided to comply with their wishes and not allow the party to last any longer than they desired.

One feature of this year's prom will be the breaking of the precedent set several years ago when an admission fee of two dollars was charged. The price of admission this year will be one dollar and a half, which price will more nearly meet the pocketbooks of many classmates who heretofore were unable to attend on account of the high price. The use of carriages will be discouraged by the committee and the high school authorities as this custom has kept many persons away from this big feature of the high school year on account of the cost.

The junior prom closes the activities for the high school and it closes with a big ball to which the graduating class is invited; to which all the alumni go, and which is in reality the real dance of the year for the young people of the city.

PRAIRIE DU CHIEN.

The Metropolitan Theater was crowded Monday evening by an interested and appreciative audience attending the high school commencement exercises. The hall and stage were beautifully decorated in white and gold, the class colors, and a profusion of flowers and ferns. Music was furnished by the high school orchestra and glee club. Promptly at 8:30 the class of thirteen young ladies and young men led by City Superintendent N. Gunderson and Rev. F. A. Troutman filed upon the stage. The program, pronounced one of the best ever given here on a similar occasion was as follows:

Music, High school orchestra. Invocation, Rev. F. A. Troutman. Salutatory, Il. Trovatore, Mayme Ceeka, John Milton, Stella Caya. Mechanical Advantages of Simple Machines, Clyde Miller. The German Rhine, Hazel Copsey. De Wacht am Rhein, Senior class. The Red Cross, Marie Walters. The Waste of War, Fred Bruchman.

The Passion Play, Edith Speck. Song, Lullaby, Glee club. The Holy Grail, Mertie Griesbach. The Olympian Games, Elmer Wachter.

Juvenile Courts, Florence Thomas. Piano Duet, Leona Garrow, Freda Boeckh. The Troubadours, Mona Wagner. Jane Addams, Florence Ziel. Valedictory, Helen Keller, May Stehr.

Presentation of Diplomas, Mr. Gunderson. Benediction.

It is reported that a pickpocket circulated among the audience at the high school commencement exercises Monday evening. Police Justice C. C. Chase was the loser of a bill book containing something over sixty dollars.

Mr. and Mrs. Charles Wagner are leaving Prairie du Chien to make their home in DeWitt, Iowa, where Mr. Wagner has accepted a position in the electric light plant. Mr. Wagner left Monday and Mrs. Wagner will join him after spending a fortnight with her parents, Mr. and Mrs. J. D. Stuart.

Last week Arnold Faurett nearly lost his life by a shock from a live wire. After a severe electrical storm he attempted to aid an electrician in picking up a broken wire. He fastened the forceps on a piece of uninsulated wire which caused him to loose his power in that hand. He attempted to pull it away with his other hand which in turn became fastened and the power of speech left him so that he could not call for aid. When the electrician saw his plight, by superhuman strength he pulled him from the wire which had fallen across the body of the boy as he fell to the ground. The boy remained unconscious for about twenty minutes.

CURES RHEUMATISM

Rheumatism is one of the oldest of human ailments, and yet the causes which produce it was a question long in doubt. It was thought at one time to be a disease of the bones entirely; its origin was also attributed to some specific affection of the nerves, and various other theories which proved to be wrong, were put forward in an effort to find a cure for the trouble. Under these conditions the treatment of Rheumatism was very unsatisfactory and only of a temporary nature. When it was determined beyond doubt that Rheumatism is a blood disease, brought about by an excess of uric acid in the circulation, then its cure became a matter of purifying the blood and thus destroying its source. Because it is the best of all blood purifiers S.S.S. has been the most successful of all treatments for Rheumatism.

When this uric acid gets into the circulation it causes a partial fermentation of the blood, which changes it from a thick, rich stream, to a thin, acid fluid, whose nourishing properties are greatly impaired. Through the circulation the uric acid is carried to every muscle, joint and nerve of the body, and then the pains and aches of Rheumatism commence. The longer the blood is allowed to remain in this acid, weakened condition the more severe will the disease become. Gradually the muscles harden and lose their elasticity, the joints begin to stiffen, and frequently calculus deposits collect and form knots at the finger joints.

The pains of Rheumatism may often be temporarily relieved by the application of hot cloths, liniments, plasters, etc., but as such treatment does not reach the blood, no one should expect permanent benefit from it.

There is just one way to cure Rheumatism and that is to purify the blood of the uric acid. S.S.S. does this more quickly and certainly than any other medicine. S.S.S. eliminates this uric acid because it is the most penetrating of all blood remedies. It is made entirely of roots, herbs and barks compounded and scientifically blended in such manner as to make it a medicine that acts through the circulation with good effect on every portion of the system. S.S.S. cures Rheumatism permanently because it removes the cause on which the disease thrives. S.S.S. contains no harmful minerals, it is perfectly safe for every one. Write for our special book on Rheumatism and learn of the great success S.S.S. has had in curing it. Any medical advice desired will be furnished you. No charge for the book or advice. S.S.S. is sold at drug stores.

WEIDELL HOLDS OUTCASTS DOWN

La Crosse Loses to Surgeons with Brother of "Bugs" on the Slab Against Them

ROCHESTER, Minn., June 4.—Weidell, on the mound for the Surgeons, yesterday allowed the Outcasts but six scattered bingles and he beat them, 3 to 1. He is a brother of Bugs Weidell, the former La Crosse twirler, and he pitched his first game yesterday. Rochester hit badly for eleven safe hits which needed them five failures and an easy victory.

NEW RECORDS ARE MADE AT THE Y

Four New Marks Established at the Annual Swimming Meet Held Last Night

Four new records were established last night in the Y. M. C. A. swimming tank by the members who took part in the annual swimming meet, which proved to be one of the most successful ever held. A large crowd was on hand for the meet which was interesting from start to finish and good time was made in all the events. A tub race and a candle race were innovations this year, both events proving a success in every way.

When Parker Boynton swam the forty-yard race in 27 3-4 seconds, he not only beat the former record for the Y. M. C. A. here but he came within two-fifths of a second of tying the national association record. He won the race easily.

Other records were broken by Kinnear, who swam the fifteen yard race in 19 4-5 seconds. Rand, who won the fifty-yard senior race in 32 3-4 seconds and Boynton, who made the thirty yard intermediate race in 19 4-5 seconds. Boynton broke two records during the evening.

A water polo game in which teams captained by Frank Rand and Earl Olson concluded the evening's program, each team having one goal to its credit when time was called and the contest declared a tie.

Summary of the meet:
30-yard intermediate race: Won by Boynton; Ender, second; Johnson, third. Time, 19 4-5.

15-yard junior A race: Won by Dean; Roellig, second; Youngberg, third. Time, 19.

15-yard junior B race: Won by Kinnear; Thompson, second; Dickens, third. Time, 19 4-5.

100-yard senior race: Won by Evans; Rand, second. Time, 1:32 4-5.

50-yard senior race: Won by Rand; Evans, second; Lavold, third. Time, 33 3-5.

30-yard junior A race: Won by Dean; Barta, second; Youngberg, third. Time, 19 3-5.

40-yard intermediate race: Won by Boynton; Ender, second; Kulcinsky, third. Time, 29 1-5.
